

Opening of TÜV Rheinland Nuremberg

Welcome to the Opening of our new Wireless/IoT Lab in Nuremberg

November 28th 2018

We are happy to invite you to our celebration at TÜV Rheinland's latest IoT state of the art wireless laboratory in Germany.

Join us and take a look behind the scenes together with us. Inform yourself about the latest „wireless technologies“ and our Testing and Certification scope on site.

Find out more about EMC conformity tests and tests for radio frequency in the radio sector in accordance with the applicable requirements in Europe, the US, Canada, Japan and Australia.
